PROPERTY DESCRIPTION

Luxury Investing

The project consist of 2+1 and 3+1 flat types in a 16-floor monolithic butterfly-type structure, and offer 66 new living spaces and 2 specially designed loft apartments, in addition to 2 floors with an area of 2.000 square meters for commercial areas that will offer a new shopping experience for the project residents.

This project, which will rise with the smart home infrastructure, which is one of the important technologies that make life easier today, will offer the chance to manage your apartment remotely.

With the under-floor heating system, more spacious living spaces will be created as there will be no installation transitions in the apartments.

We wanted this project to make you feel special while making your life easier. Therefore, it will have a unique architectural understanding that will be among the remarkable projects of its region. We will add a stylish detail, an exquisite example of modern architecture to the silhouette of Istanbul.

In this project, you will have peace of mind with the security cameras that will surround the project without leaving any blind spots and the private security guards who will provide active 24/7 service.

Your children will be able to socialize and have fun with their friends in the area specially reserved for them in the project.

Located at the intersection of connection roads in Atasehir district of Asian Istanbul, this project makes an accessible life possible. With the advantage of being in the center of the city, it offers the luxury of reaching everywhere easily.

The project's special location offers you easy access to the places you want to go, with a 5 minutes distance to the Bosphorus bridge and Camlica tower.

With its location adjacent to Istanbul Financial Center, this project also reveals a very high potential in terms of investment value.
