The project consists of 7 separate blocks, 6 residential and one hotel block, with apartment options from 1+1 to 5+1, in a most popular location in Istanbul.

The architecture of the project is extraordinary and functional. The distance between the 7 blocks forming the project is 95 meters. This width not only gives you a spacious view, but also almost all of the apartments in the project have a beautiful sea view from different angles. This width also opens up space for the green areas.

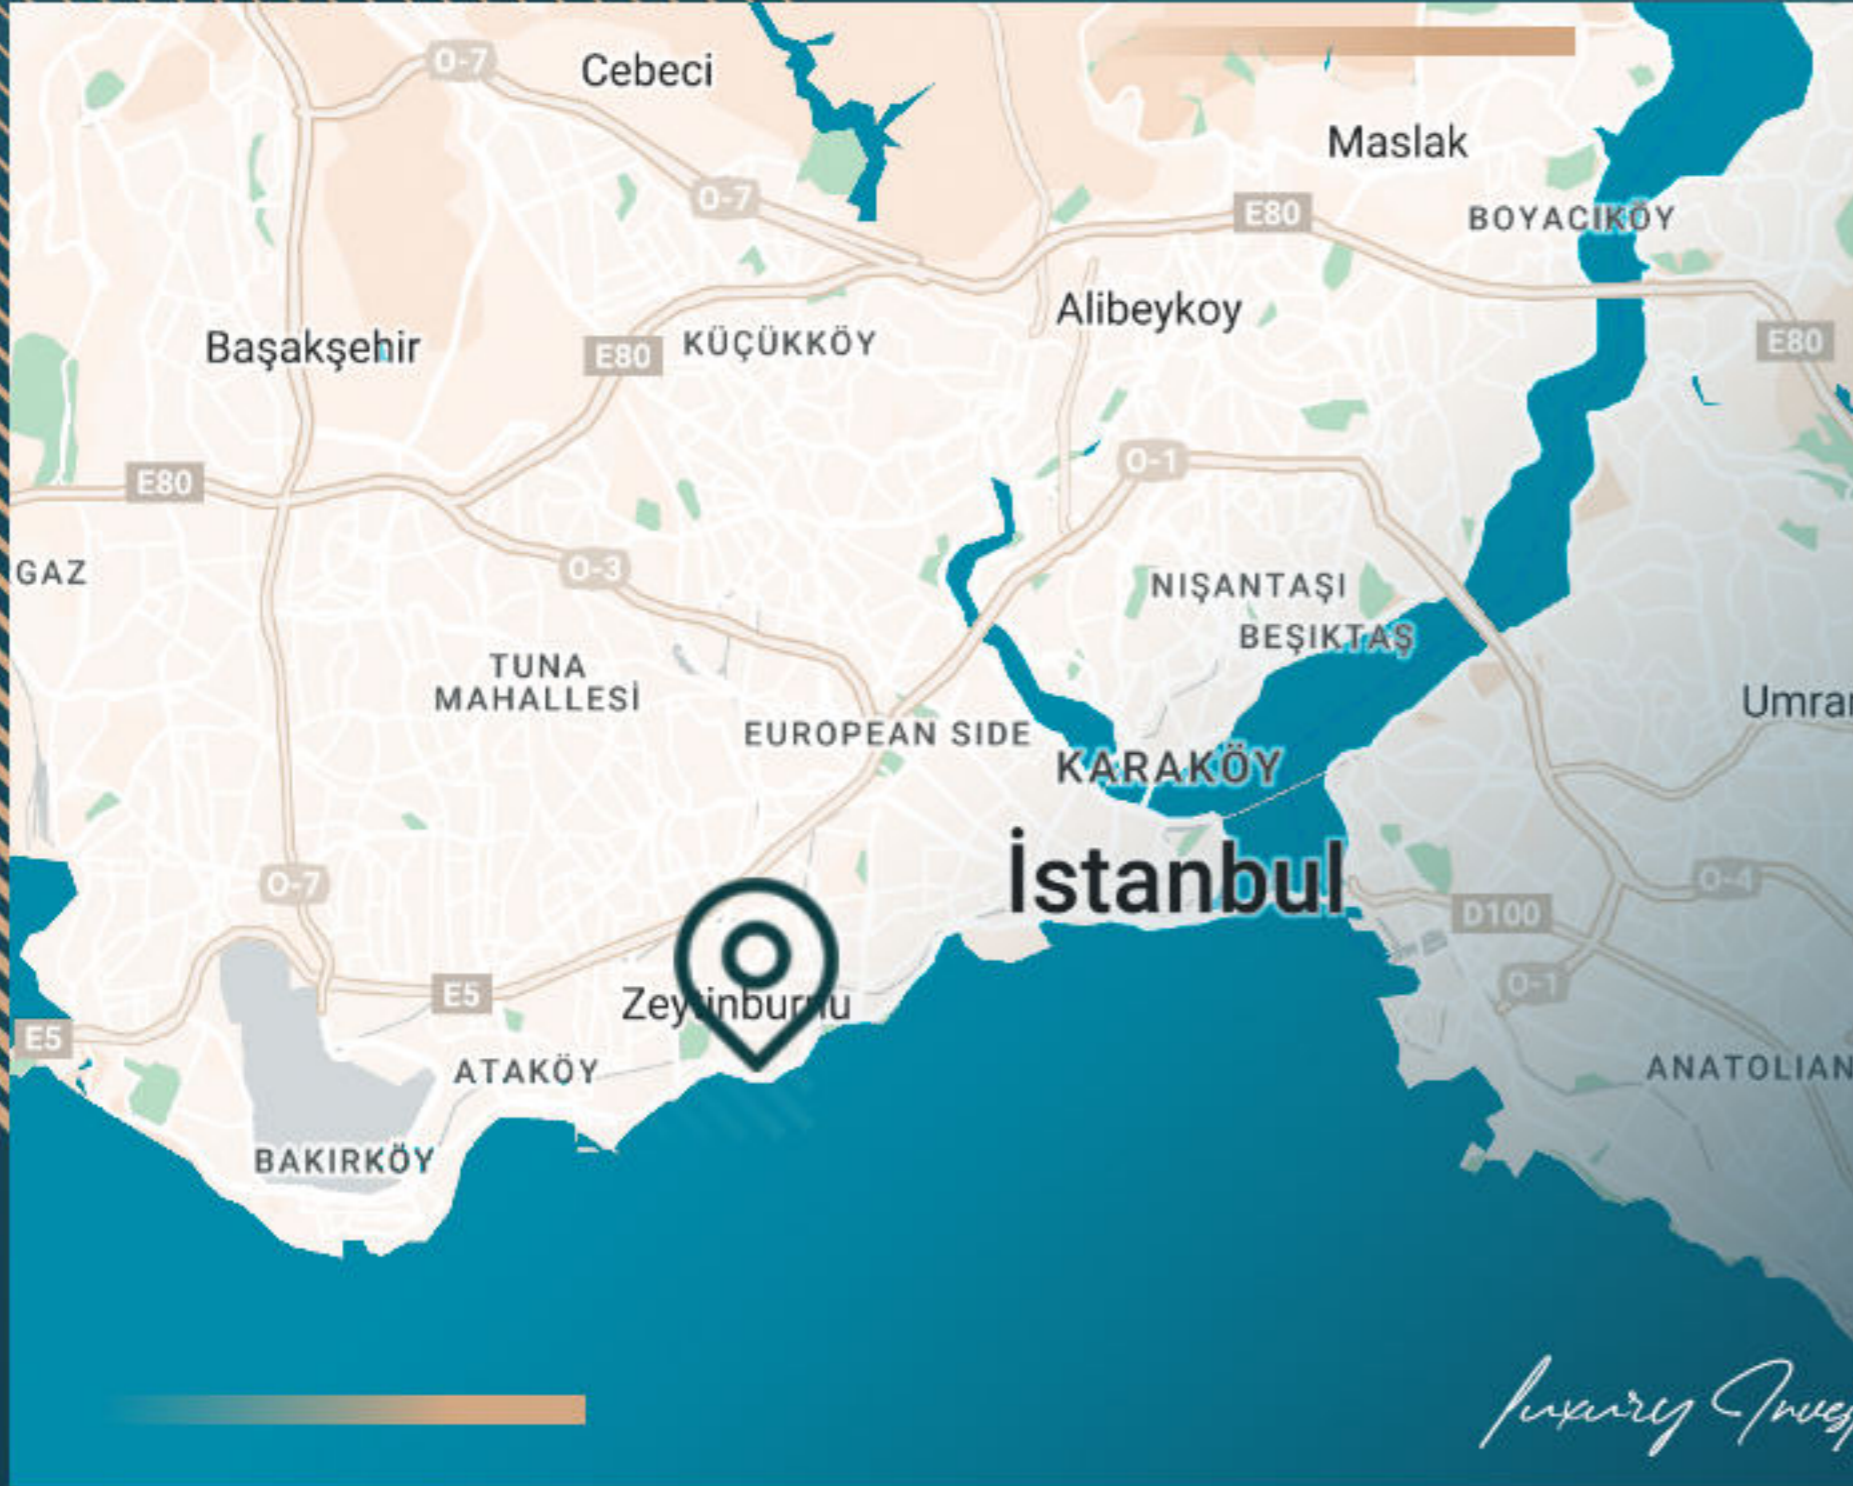

Specially designed landscaping areas offer the opportunity to enjoy the green.

Every apartment in the project is equipped with the latest technologies and smart home system. Almost everything will be under your control even when you are away from your home.

Panoramic sea view from your kitchen and living room will be part of your daily routine.
